Permit Fee for New Roof

Dear Mayor Sachs and Council Members:

Our church is currently in the process of preparing to put a new roof on the building. As we are not a large congregation, we are contacting you to request a waiver in the permit fees. If granted, this would lessen our financial burden and be a tremendous help.

Thank you for considering our request.

Sincerely,

Dennis

In regard to our previous conversation concerning our Unit 141 Flail Mower and Tractor, quotes have been acquired ranging from \$14,663.00 to \$19,968 .00 it is my recommendation and Ed Fledner's that we that we move forward with the purchase lowest price quote.

Please see ED's original email on this issue below.

Unit 141 Highway Mower

The highway mower is down. The gearbox the drives the hydraulic pump has self destructed. The gearbox is no longer available for the mower attachment. Repair parts are not available either. A new design gearbox is available along with a new hydraulic pump and brackets. There will also be fabrication work necessary to make those components work. We are looking around \$4500.00 to do this. This mower attachment is 26 years old and has seen better days. There have been structural repairs done in the past as well as cylinders replaced. The flail mower head is going to need repairs soon (roller, bearings, etc,) as well as cylinders that are leaking again.

This unit is made in England so sometimes I cannot get a good delivery time estimate.

Please advise as to the path you would like me to follow.
