Hazlet Recreation Proudly Presents

# Science Matters For Kids™

A Hands-On Science Enrichment Program

For Preschoolers (3yrs old) through 4<sup>th</sup> grade!

*The sky is blue! Birds can fly! Tides rise and fall!  
BUT WHY???*

Children are taught what is, but hardly ever taught why.

They wonder why, but are discouraged from asking.

We want to allow them the opportunity to figure out the answers on their own through hands-on discovery!

From Astronomy to Zoology and Aristotle to Zuckerberg, children are fully engaged throughout each lesson experiencing the scientific method through use of multiple learning styles!

***At the end of each lesson, your child will receive materials to continue their exploration and experimentation at home.***

*\$120 allows your child to experience six,  
1 hour, hands-on, interactive lessons.*

This includes a multitude of materials with which your child will be working, PLUS **bringing home for further experimentation!**

You will also **receive a detailed flyer each week** that gives you some information about what your child learned in class, plus additional information around that concept so that you can continue their exploration at home together.

Classes will begin on October 2<sup>nd</sup> and run every Thursday for 6 weeks, so sign up your future scientist now, so they won't miss a single lesson.

Registration is available through the Hazlet Cullen Center.

1776 Union Avenue, Hazlet, NJ 07730 - Phone: (732)739-0653

**Class times on Thursdays are as follows:**

**Ages 3 yrs to K: 10:30am or 12:00pm**

**Grades K – 4: 4:00pm**
