What Matters For Kids
is offering

Cooking Matters For Kids

Our cooking classes teaches kids how to actually cook!
For ages 6-12

No kitchen, No problem!

We use our own cooking tools, such as toaster oven and induction cooktop so there are no open flames.

The goal of this class is to introduce kids to cooking in a fun and exciting way.

We will be making different foods and learning about the culture, history, and variations of the food.

Some things we will be cooking up are:
pasta from scratch, ice cream, fortune cookies and crepes.

\$175 allows your child to experience **eight (8), 45 minute** hands-on, interactive lessons.
